Bachelor of Science & Arts (BSA) – combines a science/mathematics major with either 15 hours in a single non-STEM field of study, a transcript-recognized minor in a non-STEM field of study, or a transcript-recognized certificate.

Bachelor of Science (BS) – designed for specialists who want to concentrate up to 75% of their coursework in science and mathematics, including sub-field options in some programs.

The following major/degree combinations are available (honors options generally are not open to transfer students):

- **Human Ecology** – BSA
- **Medical Laboratory Science** – BS
- **Nutrition** – BSA, BS (options: I-Dietetics, II-Nutritional Sciences, III-Nutrition & Public Health, VI-International Nutrition)
- **Public Health** – BS (options: I-Public Health, III-Advanced Program)

Prospective Natural Science transfer students are urged to become familiar with the College’s curricula and rules in the Undergraduate Catalog 2016–2018 at registrar.utexas.edu/catalogs/.

Transfer students from Texas community colleges are eligible to graduate under UT Austin catalog rules in effect during the time they attend the community college. Those declaring the 2016–2018 catalog must satisfy all degree requirements by the end of the summer session 2024, including at least sixty semester credit hours completed in residence at UT Austin.

Prospective students can monitor their UT degree progress and check degree applicability of transfer credit by using the “Planner” feature of UT’s Interactive Degree Audit (IDA) system at registrar.utexas.edu/students/degrees/ida/.

**Use of Transfer Credit Toward Degrees**

The Office of Admissions evaluates courses from other institutions for comparability with UT Austin coursework, but the Dean’s Office in the College of Natural Sciences approves transfer credit for use in a degree program.

- Questions concerning **degree/graduation requirements** and degree applicability of transfer credit should be directed to the Center for First-Year Advising, College of Natural Sciences, WCH 1.106, UT Austin, Austin TX 78712 (512/471-3796). Prospective student information is at www.cns.utexas.edu/students/future/.

- Questions concerning **transfer admission** and transfer credit evaluation should be directed to the Undergraduate Admissions Center, John Hargis Hall, P.O. Box 8058, UT Austin, Austin TX 78713-8058 (512/475-7387). Admission information and Transfer Guides for other UT programs are at admissions.utexas.edu/apply/transfer-admission/.

**Special Notes**

- **Core curriculum** transfer credit from Texas community colleges is guaranteed to apply toward the UT Austin core, but degree plans may specify how to fulfill some core requirements. Recommendations in this Guide satisfy core requirements with courses normally prescribed by a student's major field of study at UT.

- Courses in which **grades lower than C**− are earned do not transfer. Grades from transfer credit are excluded from a student’s internal UT Austin grade point average computation.

- **College Algebra** (MATH 1314) does not count toward degree requirements in the College of Natural Sciences, but grades and credit in the course count toward transfer admission.

- **Physical education activity** courses do not count toward degree requirements in the College of Natural Sciences, but grades and credit count toward transfer admission.
