To be eligible for guaranteed fall 2018 enrollment in the UT Austin College of Liberal Arts, Coordinated Admission Program students at UT Arlington must complete 30 approved semester hours of coursework (including a mathematics course other than College Algebra) with at least a 3.2 grade point average by June 1, 2018. CAP students may compete for fall 2018 admission as external transfers in Business, Communication, Education, Engineering, Fine Arts, Geosciences, Natural Sciences, Nursing, pre-Pharmacy, and Social Work. Pursuing admission in these UT programs does not compromise automatic eligibility in Liberal Arts.

Approved CAP courses are listed below (with UT Austin transfer credit evaluations). For CAP purposes you can take any listed course, subject to availability and UT Austin’s placement, prerequisite, or other requirements. Courses in which grades lower than C – are earned do not transfer. Consult an academic advisor before selecting courses, and review the Recommended Courses following the list.

### Recommended Courses by UT Austin Major
The following recommendations cover major-specific Mathematics, Science & Technology, Visual & Performing Arts, Social Science, or Foreign Language requirements in UT Austin degrees. (English Composition, Humanities, History, and Government requirements are the same in all degrees.) While it is not a CAP requirement to follow a particular degree plan or take all recommended coursework, you are strongly encouraged to choose courses needed in your planned major field of study. Otherwise, you may delay your degree progress or affect your eligibility to declare a major (especially in programs that require completion of specific courses for admission).

#### UT Austin School of Architecture recommended courses
Note: admission to Architecture requires completion of 24 semester hours at UT Austin in addition to the 30 hours earned in the CAP program.

Mathematics – for Architecture: MATH 1426+2425.

Science & Technology –

Some majors explicitly require 2nd or 4th semester foreign language proficiency. Students in all majors are required to have two years of high school credit in a single foreign language; if you do not meet this standard you must achieve 2nd semester proficiency in university-level courses.

These recommendations conform to degree requirements in the UT Austin Undergraduate Catalog 2016–2018.
