Universal Design for Learning (UDL) involves a proactive process of designing learning experiences in order to achieve the highest level of functionality and positive user experience for the widest audience possible.

**WHAT IS UDL?**

Since no two Learners are the same, UDL helps address the differences of:

**STUDIES* INDICATE:**

- Higher on assessments when UDL is used in course design
- As few as 12% higher on assessments when UDL is used in course design
- Students with a disability tell their instructor

**UDL PROVIDES**

- 20% higher confidence & self-efficacy

**UDL ADDRESSES MULTIPLE MEANS OF:**

<table>
<thead>
<tr>
<th>REPRESENTATION</th>
<th>ENGAGEMENT</th>
<th>EXPRESSION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Presenting the same instruction in multiple ways</td>
<td>Extending a variety of opportunities for connection and interaction</td>
<td>Providing several ways to demonstrate learning</td>
</tr>
</tbody>
</table>
