Join us in Prayer...

A Weekly Global Prayer Needs List from NCM

Thursday, September 20, 2018

NCM staff in the Philippines are coordinating a response in Pangasinan and Benguet with local Nazarene pastors. An assessment team is being organized to go to the northernmost part of Luzon (the area most impacted by the typhoon) to visit the churches there, and they will deliver Crisis Care Kits and generators to distribute as needed. The Philippine Bible College was hard hit by flooding. Please pray for the Philippine churches as they work to assist their communities and the College in the cleanup.

Typhoon Recovery in the Philippines

Hurricane Recovery in the US

The Church of the Nazarene is moving into position to respond to Florence with Nazarene Disaster Response teams. Various districts are donating and transporting water, generators, bleach, and Crisis Care Kits. Volunteers are mobilizing to assist the communities most affected by Florence, and plans are in place to support a response over several weeks. NCM staff report that most Nazarene churches survived major damage, but surrounding communities were hit hard. Pray for volunteers to be able to reach the most impacted neighborhoods and families quickly, and for recovery efforts across the region.

Asylum Seekers in Greece

Hundreds of asylum-seekers stranded on Greece’s Lesbos island are living in makeshift tents in a field overrun by garbage, without electricity or running water. Moria, Greece’s biggest migrant camp in a former military base on the island, is holding 9,000 people, nearly three times its capacity, according to the latest government data. Pray for those who have fled conflict and are now living in these difficult conditions while awaiting news of their asylum claims.
