What is CalFresh?
The CalFresh Food program provides monthly benefits to eligible college students on an Electronic Benefits Transfer card, also known as an EBT card for purchasing nutritious food.

What Can I Buy?
Your CalFresh EBT card can be used to purchase cold foods and grocery items including snacks and drinks. The only restricted items are hot foods and non-food items such as school supplies.

Where Can I Use My EBT Card?
To determine if your campus store or market takes CalFresh EBT transactions look for the EBT decal. Also, check with your local farmers' market. Many accept EBT.
