Public Disclosures Procedures

Effective Date: September 1, 2019

Contents
I. Purpose
II. Procedures for Public Disclosure of Consumer Information
III. Procedures for Accurate Representation of Accreditation Status
IV. Procedures for the Correction of Misleading Information
V. Definitions

I. Purpose
The Middle States Commission on Higher Education (MSCHE or the Commission) seeks to ensure that institutions disclose consumer information to the public in a manner that is honest and truthful. The purpose of these procedures is to implement the Public Disclosures Policy.

II. Procedures for Public Disclosure of Consumer Information
A. The institution will publicly disclose consumer information on its website, in accordance with Commission standards for accreditation, requirements of affiliation, policy and procedures, and with state and/or federal regulation, including any information required under HEOA, title IV participation, or any other applicable law or regulation.
   1. The institution is responsible for ascertaining applicable local, state, federal, or other law or regulations that pertain to the institution.
   2. The institution will organize disclosure requirements in an appropriate and efficient manner.
      a. The institution may consolidate appropriate consumer information in one location with a single Uniform Resource Locator (URL).
      b. This approach is recommended as it consolidates the information in one convenient location and addresses multiple accountability requirements for a variety of constituents.

B. The institution will publicly disclose student achievement data on the institution’s website that is up-to-date, accurate, and complete.
   1. The institution may provide the traditional IPEDS graduation rate.
   2. The institution may present multi-year data for comparison purposes.
   3. The institution may adjust the traditional graduation rate for variables or factors appropriate to institutional mission, at the institution’s discretion.
   4. The institution may use alternative measures if traditional graduation rates do not apply (including but not limited to graduate-only institutions or institutions which do not serve first-time, full-time students).
   5. The institution may provide additional qualitative or quantitative student achievement data that accurately conveys the success of students attending that institution, at the institution’s discretion. Examples of quantitative data include...
but are not limited to completion rates, retention rates, placement data, employment data, or licensure pass rates. Examples of qualitative data include but are not limited to student satisfaction data or student learning outcomes data.

6. The institution may provide additional information that provides context for the institution.

7. The institution will disaggregate data if required by any applicable law or regulation.

8. The institution will regularly update student achievement data to ensure that data are accurate, consistent, and complete. The institution should be prepared to explain how they validate data and maintain accuracy.

9. The institution will report to the Commission the URL where the public can access student achievement data. The institution will update this URL whenever necessary through the secure MSCHE portal.

10. The Commission will post this URL on the institution’s directory listing on the MSCHE website.

C. The institution will publicly disclose information about itself and its educational programs that is up-to-date, accurate, and consistent with institutional mission and goals, including but not limited to the following:

1. catalogs (including a mechanism to ensure the availability of archival editions to serve the needs of alumni and former and returning students);
2. academic calendars and pertinent information about educational programs and courses, with required sequences of course offerings explicitly stated;
3. program completion requirements, including length of time normally required to obtain a credential;
4. if the institution has a written/contractual arrangement, reviewed and approved by the Commission, with a third-party provider to offer twenty-five (25) percent or more of an educational program, a clear statement about the arrangement in accordance with federal regulation §668.43(a)(12)(i-iv);
5. any unique requirements for career paths;
6. any relevant and applicable national and/or state requirements for eligibility for licensure or entry into the occupation or profession related to those degrees or programs;
7. a clear statement if a program does not make the graduate eligible to take required professional examinations in that field or to practice regulated professions.

D. The institution will publicly disclose relevant policies and/or procedures, including but not limited to:

1. Credit hour (see the Commission’s Credit Hour Policy)
2. Transfer of credit (see the Commission’s policy Transfer Credit, Prior Learning, and Articulation)
3. Admissions
4. Complaints or grievances
5. Withdrawals
6. Student refunds
7. Grading
8. Satisfactory Academic Performance (SAP)

E. The institution will publicly disclose accurate information regarding the cost of attendance, including tuition, fees, and expenses.

F. The institution will publicly disclose information about the availability of student financial assistance for those who qualify and the process for disbursements, repayment, and refunds.

G. The Commission will verify at regular intervals that member institutions have publicly disclosed the required information through the Verification of Compliance with Accreditation Relevant Federal Regulations and through accreditation activities.

III. Procedures for Accurate Representation of Accreditation Status

A. The institution will display a general statement about its membership in MSCHE on its website and wherever accreditation is referenced in publications.

1. Accredited institutions should use the following statement:

   The [institution name] is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, PA 19104. (267-284-5000) www.msche.org. The MSCHE is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation (CHEA).

2. Candidate institutions should use the following statement which includes the effective date (month and year) that candidate for accreditation status was granted by the Commission and an explanation of what candidate for accreditation status means.

   Effective (month and year), the [Institution name] is a Candidate for Accreditation Status with the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, PA 19104. (267-284-5000) www.msche.org. The MSCHE is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation (CHEA).

   Candidate for Accreditation Status indicates that an institution is progressing toward, but is not assured of, accreditation. The institution appears to have the potential to meet the Commission’s standards for accreditation, requirements of affiliation, policies and procedures, and federal compliance requirements within the federally mandated five-year time limit.

B. The institution will display, maintain, and update a statement about its current accreditation phase and accreditation status, which the institution can find in the Institution Directory on the Commission’s website. The institution will ensure that the accreditation phase and
accreditation status are accurately represented and easily accessible to the public and institutional constituents.

1. The institution will accurately refer to the accreditation phase and accreditation status granted by the Commission as it applies to the institution as a whole, not to individual programs or locations, nor to any other entity with which the institution is related or has any affiliation.

2. Institutions will not imply that specific programs are accredited by MSCHE since it is not a programmatic accrediting agency. The institution should state that the program or degree is offered at an institution that is accredited by MSCHE and provide contact information for the Commission.

3. Institutions will not use the language “fully accredited” since MSCHE does not offer partial accreditation.

4. The candidate or accredited institution that has been placed on show cause by the Commission is required to publicly disclose the Commission’s show cause action prominently on the institution’s website.

C. The institution will publicly disclose information about its scope of accreditation and accurately represent any substantive changes. See the Commission’s Substantive Change Policy and Procedures.

1. The institution will publicly disclose a list of other geographic locations and programs available at those locations.

2. The institution must wait until a substantive change request is submitted before advertising, marketing, or recruiting for the planned substantive change.

3. Until the change is included within the scope of the institution’s accreditation, the institution must include a written notification on all relevant advertising, marketing, or recruiting materials that a proposed substantive change is “pending approval by the Middle States Commission on Higher Education.”

D. An institution that is closing (will cease operations entirely) or is subject to an adverse action with an approved teach-out plan is required to publicly disclose a statement about the teach-out plan in accordance with Teach-Out Plans and Agreements Policy and Procedures.

E. Organizations that are not institutions of higher education and/or are not accredited and/or are not members of the Commission, including applicant institutions or organizations that may have some affiliation, partnership, or arrangement with a member institution, are prohibited from implying accredited status with the Commission in any way. The term accreditation is to be used only when accredited status is conferred to an institution of higher education by an accrediting agency recognized by the U.S. Secretary of Education and/or the Council for Higher Education Accreditation (CHEA).

F. The Commission will verify at regular intervals that the member institution has accurately represented its accreditation phase, accreditation status, and its scope of accreditation through the Verification of Compliance with Accreditation Relevant Federal Regulations and through accreditation activities.
IV. **Procedures for the Correction of Misleading Information**

A. The Commission will require an institution that has provided misleading consumer information or misrepresented its accreditation phase, accreditation status, scope of accreditation, the contents of reports or reviews, the institution’s standing with the Commission, or the Commission’s accreditation actions to immediately take corrective action as directed by Commission staff.

B. The Commission reserves the right to take any accreditation action in accordance with its *Accreditation Actions Policy and Procedures* if the institution does not comply with this policy or take corrective action in a timely manner.

C. The Commission may determine that it is necessary to make pertinent information available to the public to correct misleading information in accordance with the *Communication in the Accreditation Process Policy and Procedures*.

V. **Definitions**

The following definitions are used in this policy and/or procedures:

A. **Accreditation activity.** All activities (reviews, on-site visits, etc.) conducted by Commission representatives related to the institution’s accreditation phase, accreditation status, or scope of accreditation occurring throughout the accreditation review cycle and during monitoring activities for a member or applicant institution.

B. **Accreditation materials.** All documentation related to accreditation activities including but not limited to the institution’s written reports to the Commission, submitted evidence, team reports, institutional responses, confidential briefs, complaints or third-party comments, action notifications, substantive change requests, and any correspondence of record. Accreditation materials are treated as confidential by Commission representatives, become part of the institutional record, and are retained in accordance with the Commission’s *Maintenance and Retention of Commission Records Policy and Procedures*.

C. **Accreditation phase.** The stage of the institution in the accreditation lifecycle (applicant, candidate, accredited). The phase will also indicate if an institution is a *former* applicant, candidate, or accredited institution. Accreditation phase is posted on the institution’s directory listing on the MSCHE website, with the exception of applicant institutions which are not displayed publicly in the institution directory.

D. **Accreditation status.** The member institution’s standing with the Commission based on the most recent grant of candidate for accreditation status, grant of accreditation, reaffirmation, non-compliance, or adverse action taken by the Commission. Administrative, procedural, or substantive change actions do not affect the accreditation status of an institution. Accreditation status is posted on the institution’s directory listing and the Statement of Accreditation Status (SAS) on the MSCHE website.
E. **Commission representatives.** Individuals who represent or serve the Commission in any capacity including but not limited to peer evaluators, Commission staff, and Commissioners.

F. **Correspondence of record.** Any written communication or correspondence (including email) between the institution’s key contacts and Commission staff and any correspondence between other agencies or related entities and the Commission staff related to an institution. Correspondence of record is confidential and part of the institutional record.

G. **Institution directory.** The Commission’s online listing of institutions that currently have candidate for accreditation status with or are accredited by MSCHE. The institution directory also provides pertinent information about former candidate or accredited institutions.

H. **Institutional record.** The compilation of all documentation that the Commission has on file related to the institution including but not limited to accreditation materials and any materials received from the government or other quality assurance agencies related to the institution.

I. **Member institution.** All institutions that are accredited by MSCHE and all institutions that have been granted Candidate for Accreditation Status by MSCHE, that are in good standing with respect to payment of dues and fees, shall be institutional members of MSCHE. Accreditation and candidacy shall be established according to the standards for accreditation, requirements of affiliation, policies and procedures, and federal compliance requirements adopted by the Commission. *(MARCHE Bylaws Amended and Restated Effective as of July 1, 2019)*

J. **Related entity.** A non-accredited entity that shares decision making responsibility with the member institution’s governing body. A related entity may be a corporate parent, system administration or board, religious sponsor, funding sponsor (which, in some cases, may include an equity or investment fund), or other entity that can affect decisions related to accreditation. Related entities may include institutional or corporate layers or groups. Local, county, and state legislatures, other accreditors, local advisory boards, and government agencies are not considered related entities. Contractual arrangements in which the institution has a written contract for services with a non-accredited entity are not considered related entities.

K. **Scope of accreditation.** The institution’s accreditation status covers a defined scope of educational offerings, including but not limited to credential levels, delivery methods, and locations which have been reviewed by the Commission during accreditation activities. Any substantive changes to the scope of accreditation must be reviewed through the substantive change review process before they will be included within the institution’s scope of accreditation by the Commission.
L. **Statement of Accreditation Status (SAS).** The Commission’s official public statement about each institution’s current accreditation status. The SAS is a downloadable, printable statement with information about the institution, including but not limited to the institution’s accreditation phase, accreditation status, scope of accreditation, and a history of the accreditation actions taken by Commission for the past ten years.
