To be eligible for guaranteed fall 2021 admission to the UT Austin College of Liberal Arts (excluding the majors in Economics or Environmental Science), Coordinated Admission Program students must complete 30 transferable semester hours of approved coursework (including a mathematics course other than College Algebra) with at least a 3.2 grade point average by June 1, 2021.

CAP students may compete for fall 2021 external transfer admission in Business, Communication, Education, Engineering, Fine Arts, Geosciences, Liberal Arts (Economics or Environmental Science), Natural Sciences, Nursing, pre-

Pharmacy, and Social Work. Pursuing admission in these UT Austin programs does not compromise guaranteed admission to Liberal Arts. Approved CAP general education courses are listed below (with UT Austin transfer credit evaluations). For CAP purposes you can take any listed course, subject to availability and UT Permian Basin’s placement, prerequisite, or other requirements. Courses with grades lower than C – are not transferable and will not count toward the required 30 CAP hours. Consult an academic advisor before selecting courses, and review the Recommended Courses following the list.

---

**Recommended Courses by UT Austin Major**

These recommendations cover major-specific Mathematics, Science & Technology, Visual & Performing Arts, Social Science, or Foreign Language requirements in UT Austin degrees. (English Composition, Humanities, History, and Government requirements are the same in all degrees.)

It is not a CAP requirement to follow a particular degree plan or to complete all recommended courses, but taking courses needed for your planned major avoids delays in degree progress and eligibility to declare a major.

---

**UT Austin School of Architecture recommended courses**

Note: admission to Architecture requires completion of 24 semester hours at UT Austin in addition to the 30 hours earned in the CAP program.

**Mathematics** – for Architecture: MATH 2413+2414.

- for Architecture: a two-course architectural history sequence is required, unavailable at UT Permian Basin.
- for Interior Design: PSYC 1301.

---

**UT Austin McCombs School of Business recommended courses**

Note: admission to Business requires completion of ECON 2301+2302 and MATH 2413+2414.

**Mathematics** – MATH 2413+2414. Add MATH 2415 for the Science & Technology Management major.

**Science & Technology** – for the Science & Technology Management major: CHEM 1311 and PHYS 2325+2326+2125+2126.

**Social Science** – ECON 2301+2302.

**Foreign Language** – for International Business: intermediate proficiency in a language associated with the world region in which the student plans to specialize.

---

Some majors require beginning (freshman year) or intermediate (sophomore year) foreign language proficiency. All majors require two years of high school credit in a single foreign language; if you do not meet this standard you must achieve beginning proficiency in university-level courses.

Recommendations do not include Skills & Experience Flag requirements, which are designed to be satisfied by courses taken in residence at UT Austin (see http://ugs.utexas.edu/flags/students/).

---

(continued →)
UT Austin Moody College of Communication recommended courses

Mathematics –
• for Advertising or Public Relations: select a course other than MATH 1342.

Foreign Language – intermediate proficiency.

UT Austin College of Education recommended courses

Mathematics –
• for Athletic Training: MATH 2412 or 2413.
• for Kinesiology/Exercise Science major: MATH 2413.

Science & Technology –
• for Athletic Training: BIOL 2303; BIOL 1306; and a sequence chosen from CHEM 1311+1312 or PHYS 1301+1302.
• for Kinesiology: BIOL 1306 and CHEM 1311+1312. In the Exercise Science major PHYS 1301+1302 is also required.

Social Science – PSYC 1301.

Foreign Language – for Applied Learning: beginning proficiency. Spanish is recommended for prospective Texas teachers.

UT Austin Cockrell School of Engineering recommended courses

Note: admission to Engineering requires completion of at least four technical courses including MATH 2413, MATH 2414, PHYS 2325+2326, and others in BIOL, CHEM, GEOL, MATH, or PHYS chosen from those listed below. Applicants exceeding this four-course minimum are more competitive.

Mathematics – MATH 2413+2414+2415 for all degrees.

Science & Technology – PHYS 2325+2326+2325+2326 for all degrees. Additionally...
• for Aerospace, Computational, or Mechanical Engineering: CHEM 1311.
• for Architectural Engineering: CHEM 1311 and GEOL 1301+1101.
• for Biomedical Engineering: BIOL 1306+1106 and CHEM 1311+1312+1111+1112.
• for Chemical Engineering: CHEM 1311+1312+1111+1112.
• for Civil Engineering: CHEM 1311+1312.
• for Environmental Engineering: BIOL 1306, CHEM 1311+1312+1111+1112, and GEOL 1301+1101.
• for Geosystems or Petroleum Engineering: CHEM 1311+1312 and GEOL 1301+1101.

Visual & Performing Arts – for Architectural Engineering: a dedicated architectural history course is required, unavailable at UT Permian Basin.

UT Austin College of Fine Arts recommended courses

Visual & Performing Arts
• for the majors in Art Education, Art History, or Studio Art: ARTS 1303+1304.
• for the design major: ARTS 1304.
• for all other degrees & majors: one course outside the student’s major field of study.

Foreign Language – beginning proficiency for the BA Studio Art major; intermediate proficiency for all other BA degrees.

UT Austin Jackson School of Geosciences recommended courses

Note: Geological Science applicants are strongly encouraged to complete CHEM 1311, GEOL 1301+1101, and MATH 2413. Environmental Science applicants must complete BIOL 1306, CHEM 1311, and MATH 2413 with grades of at least C– and GEOL 1301+1101 with a grade of at least B–.

Mathematics –
• for BA Geoscientific: MATH 2413.
• for BS Geological Sciences/Teaching option: MATH 2413+2414.
• for BS Geological Sciences/nonteaching options: MATH 2413+2414+2415.

Science & Technology – MATH 2413+2414.

• for BA Geoscientific: CHEM 1311+1312, GEOL 1301+1302+1101+1102, and one chosen from PHYS 1301 or 2325.

• for BS Geological Sciences: CHEM 1311+1312+1111+1112, GEOL 1301+1101, and PHYS 2325+2326+2325+2326. Add GEOL 1302+1102 for the General or Teaching options.

• for Environmental Science: BIOL 1306+1307, CHEM 1311+1312+1111+1112, GEOL 1301+1101, and PHYS 2325+2326+2325.

Social Science – for Environmental Science: ECON 2302.

Foreign Language – intermediate proficiency for the BA Geoscientific; beginning proficiency for Environmental Science and BS Geological Sciences.

UT Austin College of Liberal Arts recommended courses

Note: for admission to Environmental Science see note under School of Geosciences.

Mathematics –
• for Economics or Environmental Science: MATH 2413+2414.
• for Psychology (BS) or Urban Studies: MATH 2413 & 1342 (minimum grades of C+ required for admission to Urban Studies).

Social Science –
• for Environmental Science: ECON 2302.
• for Sustainability Studies: SOCI 1301 and one chosen from ECON 2301 or 2302.

Foreign Language – intermediate proficiency for all BA degrees; beginning proficiency for Environmental Science and Psychology (BS).

UT Austin College of Natural Sciences recommended courses

Note: to be competitive for admission to Natural Sciences students should at minimum complete MATH 2413 or 2342 and two courses from BIOL 1306, BIOL 1307, CHEM 1311, CHEM 1312, PHYS 2325, or PHYS 2326 and have grades of A or B in all math and science coursework. For admission to Environmental Science see note under School of Geosciences.

Mathematics – MATH 2413 for all degrees/majors. Additionally...
• MATH 2414 for Biochemistry (BSA), Biology, Chemistry (BSA), Computer Science (BA, BSA), Environmental Science, Mathematics, or Neuroscience.
• MATH 2414+2415 for Astronomy, Chemistry (BA, BS), Computer Science (BS), or Physics.

• MATH 1342 for Textiles & Apparel.

Science & Technology –
• for Astronomy: PHYS 2325+2326+2125+2126.
• for Biochemistry: BIOL 1306+1307, CHEM 1311+1312+1111+1112, and PHYS 2325+2326+2125+2126.
• for Biology: BIOL 1306+1307+1106+1107 and CHEM 1311+1312+1111+1112.
• for Chemistry: CHEM 1311+1312+1111+1112 and PHYS 2325+2326+2125+2126.
• for Computer Science: a sequence chosen from BIOL 1306+1307+1106+1107, CHEM 1311+1312+1111+1112, or PHYS 2325+2326+2125+2126.
• for Environmental Science: BIOL 1306+1307, CHEM 1311+1312+1111+1112, GEOL 1301+1101, and PHYS 2325+2125.
• for Human Development & Family Sciences: BIOL 1306, CHEM 1311, and either BIOL 1307 or CHEM 1312.
• for Mathematics: a sequence chosen from BIOL 1306+1307+1106+1107, CHEM 1311+1312+1111+1112, GEOL 1301+1302+1101+1102, or PHYS 2325+2326+2125+2126.
• for Medical Laboratory Science: BIOL 1306+1307 and CHEM 1311+1312+1111+1112.
• for Neuroscience: BIOL 1306+1307+1106+1107, CHEM 1311+1312+1111+1112, and PHYS 2325+2326+2125+2126.
• for Nutrition: BIOL 1306 and CHEM 1311+1312+1111+1112.
• for Physics: PHYS 2325+2326+2125+2126. Add CHEM 1311+1312+1111+1112 for the BA & BS degrees; add BIOL 1306, CHEM 1311, or GEOL 1301+1101 for the BSA degree.
• for Public Health: BIOL 1306+1307 and CHEM 1311+1312+1111+1112.
• for Textiles & Apparel: BIOL 1306 and CHEM 1311+1312+1111+1112.

Social Science –
• for Environmental Science: ECON 2302.
• for Mathematics/Actuarial Science option: ECON 2301+2302.
• for Nutrition: ECON 2301 or 2302, PSYC 1301, or SOCI 1301. In the International option ECON 2301 or 2302 must be chosen.
• for Public Health: ECON 2301 or 2302 or PSYC 1301.
• for Textiles & Apparel/merchandising option: ECON 2302.

Foreign Language – intermediate proficiency for all BA degrees; beginning proficiency for Environmental Science.

UT Austin School of Nursing recommended courses

Note: admission to Nursing requires completion of BIOL 1306 and CHEM 1311.

Mathematics – MATH 1322 or 1333.

(Note: these courses are recommended to fulfill the CAP mathematics requirement. UT Austin Nursing requires a statistics course for which UTPB has no equivalent.)

Science & Technology – BIOL 1306, BIOL 2303, and CHEM 1311.

Social Science – PSYC 1301.

UT Austin College of Pharmacy recommended courses

Mathematics – MATH 2413 and MATH 1342.

Science & Technology – BIOL 1306+1307, CHEM 1311+1312+1111+1112, and either PHYS 1301+1101 or 2325+2125.

UT Austin School of Social Work recommended courses

Science & Technology – BIOL 1306.

Social Science – PSYC 1301, SOCI 1301, and either ECON 2301 or 2302.

Foreign Language – beginning proficiency.
