**Anthony Sclar DMD:** Board Certified Oral and Maxillofacial Surgeon (ABOMS)

**Elizabeth Suarez:** Treatment Coordinator Sclar Oral Surgery & Implant Dentistry

### Course Overview

**This 3-day comprehensive Sclar Center Surgical Continuum Soft Tissue Immersion Course** is designed to empower clinicians to absorb and retain the knowledge base and surgical skills required to perform cutting edge periodontal and peri-implant plastic surgery procedures at healthy and compromised sites. **Learn the step-by-step surgical procedures required to predictably provide periodontal and peri-implant plastic surgery procedure for your patients.** Comprehend the case selection criteria, risk factors and preventative treatment planning methods to avoid and manage soft tissue complications. Learn how to effectively perform patient consultation and case presentations resulting in unprecedented levels of patient acceptance and post treatment satisfaction.

### Highlights

- Unbiased evidence based scientific and clinical presentations bolstered by extensive edited soft tissue perioplastic procedure videos
- Interactive procedure observations with live Q&A: Periodontal and Peri-implant plastic surgery procedures
- Extensive hands-on training: Perform all the procedures learned in the classroom on customized anatomic models and cadaver specimens under Dr. Sclar’s supervision aided by step-by-step procedure videos at your individual work station
- Learn to perform a comprehensive soft tissue functional and esthetic periodontal plastic patient evaluation and risk assessment
- Learn the Step-by-step details of perioplastic suture techniques and donor and recipient site surgery required to perform root and abutment coverage, implant-pontic site development and horizontal and vertical soft tissue augmentations using: Gingiva grafts, Palatal &Tuberosity Connective Tissue grafts, Combination Onlay-Interpositional grafts, VIP-CT Palatal Pedicle Flap, dermal matrix and Mucograft™ soft tissue graft substitutes and Growth Factors/Healing Adjuncts(PRP, L-PRF, Gem21S, Emdogain)
- Learn the Step-by-step procedure details required to perform: Papilla augmentation, esthetic crown lengthening and tissue engineering methods as root-abutment coverage and gingival biotype conversion procedures around teeth and implants
- Become adept at selecting and sequencing periodontal-peri-implant plastic surgery procedures with bone grafting and implant placement procedures as part of interdisciplinary management of complex implant assisted reconstructions
- Benefit from case treatment planning exercises: for recognition and management of straight forward, advanced and complex case types
- Avoid, identify and treat complications related to periodontal and peri-implant plastic surgery
- Learn critical concepts related to prosthetic soft tissue management
- Benefit from small group dynamics and our unique Binge Learning™ teaching methodologies which allow students to learn more, retain more and quickly implement procedures in their practice.
- After each course we mentor our students with their first couple of cases to help them successfully implement!

Come and experience Miami, Florida with year-round mild climates and unrivaled ocean access. **The Sclar Center for Advanced Implant Dentistry Learning** is minutes away from the gorgeous pastel buildings and white sandy beach of South Beach. Enjoy all the great water sports to your heart’s content. Visit the rare and beautiful ecosystems of Biscayne National Park, Everglades National Park and the Florida Keys. World renowned for its night life, Miami is home to great hot spots such as South Beach, Design District, Downtown cultural and sports centers, South Miami, Coconut Grove and Coral Gables.

**Come for the education and stay for a vacation!**

I WOULD LIKE TO REGISTER FOR:

— Soft Tissue Grafting & Periodontal Plastic Surgery: April 7-9, 2019
— Soft Tissue Grafting & Periodontal Plastic Surgery: October 20-22, 2019
  o Tuition is $6,495 for this 3-day Immersion Course

HERE’S MY INFORMATION:

Name: _____________________________________________________
Address: ___________________________________________________
  ____________________________________________________________
Email Address: ______________________________________________
Phone: ____________________ Mobile: __________________________
Signature: __________________________________________________
Credit Card _____________________________________ Exp ________Cd______

A deposit of $2,000 is due at signing. The remaining tuition will be due 90 days prior to the course.

“Dr. Sclar is an exceptionally outstanding teacher. His material is up-to-date. He not only is a good surgeon, but he can also write and give good lectures. Not many clinicians can master all these three skills. His lectures were very exciting and informative. The last four days in the afternoon, I did not need coffee and candy to keep me paying attention. I have been practicing dentistry for thirty years and taken many CE courses—Dr. Sclar’s course, is a must for anyone who is interested in improving implant and soft tissue grafting skills.” Dr. Y.S. Tim Chung, Canada

“I was always concerned about the soft tissue around implants, but didn’t know the best way to address it. Now I know, and I’m super eager to apply the info that I learned in my practice right away.” Dr. Virginia Lee, Washington D.C.

“An exceptional experience by a phenomenal clinician who brings an exceptional educational experience.” Dr. Donald Hoaglin, Glendale, AZ
