Modification

Please note that if these changes involve changes to Radiation Safety or Biosafety, the IRB will hold its approval until Radiation Safety or Biosafety forwards its approval to the IRB. IMPORTANT Cancer Institute Scientific Review Committee (SRC) requirements: For cancer-related studies - All changes to the protocol's study design and/or accrual numbers must be submitted to the SRC to determine if re-review is required prior to continuing enrollment. See http://cancer.stanford.edu/trials/srctop.html for more information.

1. Summarize your proposed changes. If the changes require an update the consent form, please indicate the status of the study and your plan to re-consent participants.

   Proceed to the appropriate section(s), and make your changes. Make necessary changes in Consent/Assent Form(s) and HIPAA, using "track changes" so that reviewers can see what was changed, when applicable.

2. Indicate Level of Risk
   (if level of risk has changed, please update the section 'Risks' in the protocol information.)
   - Increase
   - No Change
   - Decrease

3. Update the Conflict of Interest (COI) section if any changes in COI have been made since the last protocol submission.
   - Yes  No
   Is there a change in the conflicting interest status for any existing personnel on this protocol?

   If yes, indicate for whom the change is being made.

4. Approval Includes

   List of Sections (and questions) that have been changed/modified

   Obligations
