The following information (Responses to Questions 1 – 5) is required by the Developer of the storage system applying for SGIP’s Equity Resiliency Budget or Non-Equity Resiliency Budget with a discharge duration greater than two hours.

2) Indicate whether the project’s critical loads can and will be isolated.

3) Provide an estimate of how long the project’s fully charged battery will provide electricity to critical uses during an outage.

4) Provide an estimate of how long the project can operate in less-than favorable circumstances, such as if an outage occurs when the battery has been discharged or during the winter (if paired with solar).

5) Summarize information given to the customer about how the customer may best prepare the storage system to provide backup power, in the case of a Public Safety Power Shutoff (PSPS) event announced in advance (provide an attachment with more information if necessary).
