V-Groove & Plantation

V-Groove boards offer the same precision tongue & groove as beadboard, with the more minimalist feel of shiplap. Plantation boards provide the look of rough-sawn or smooth shiplap but without any gap.

2 Types of Boards: TRADITIONAL or PROTECTED

NOTE: Not all profiles are compatible.

Precision manufacturing ensures a perfect fit.

*Satisfaction guaranteed, see WindsorONE.com/install for details
All V-Groove, Plantation, Beadboard, Nickel Gap & Shiplap can be installed as VERTICAL OR HORIZONTAL wainscoting... (even diagonal!)
**NOTE:** Shiplap and T&G are NOT to be used as exterior siding.

Visit WindsorONE.com/ideas for more installation photos.
A KEY INGREDIENT FOR A MODERN LOOK: SHIPLAP

Contrasting accents in black, a metal roof and a homage to the architectural features of the more classic farmhouses help create this look. Shiplap lines help compose the room by bringing the eyes to various focal points of the space.

CREDITS 1-2, 4, 6-10. Special thanks to Woods Architecture, LLC and Seven Development in AZ 3, 8. Dave Bell in CA 5. Homeowner in CA

NOTE: WindsorONE Shiplap and T&G are for exterior porch lids & soffits and NOT to be used as siding. S4SSE Trim Boards are for fascia, rake boards...
band boards, corner boards, exterior door & window trim & NOT to be used as board & batten siding. See WindsorONE.com/install for details.
TRADITIONAL FARMHOUSE ELEMENTS

PRECISION BOARDS FOR A CLASSIC LOOK

Look for WindsorONE Protected Boards with a 30 year warranty against rot, insects & mold; industry leading technology to restore or recreate looks from previous centuries. All WindsorONE products have a Gold Indoor Air Quality Rating for a healthy home.

BARN DOORS are a hallmark of Farmhouse Style, and can also incorporate WindsorONE specialty & trim boards.

STAIN GRADE ACCENTS
Work well against the white textures created by Shiplap & V-Groove boards.

**For Complete Installation Guidelines & the WindsorONE Protected Warranty, visit WindsorONE.com/install or call 888.229.7900.**

1. **Protected to the Core; Full Penetration**
   - Because unlike the other guys, we’re assuming you’ll actually want to cut the material at some point.

2. **Protected Against Rot, Insects & Mold**
   - Does not protect against your mother-in-law, hangovers, airport security, etc.

3. **Durable for Exterior & Safe for Interior**
   - Gold Indoor Air Quality Rating, low VOC’s and California Hippie Approved.

4. **Weather Resistant System (WRS™)**
   - Water is for drinking, not trim boards.

5. **Minimizes the Natural Tendency to Distort**
   - Unlike the explanation your 16 yr old told you about how the family car ended up in the pond on Rte 1.

6. **No Knots; Your Boards are Always Clear**
   - Imagine that, you can actually use every foot you pay for.

7. **Protection Not Diminished**
   - By shaping, planing, sanding, fastening or molding (actual use does not void the warranty).

8. **The Cut Surfaces Only Need Priming**
   - No need to also apply special protection (we took care of that for you).

9. **Backed by a 30-Year Limited Warranty**
   - The “limitation” is you have to install it correctly (for one example see #8 again).

10. **Build America; Manufactured in the U.S.A.**
    - Because everything else you bought was made in China.

**Installation Reminders**

- **Prime All Cuts!**
- **Moisture Control:** Acclimate to the environment. For interior trim, store inside the structure until the products reach approx 8% moisture content. For exterior trim, store in locations such as a garage that is not heated & is well ventilated until about 14% moisture content. Do not install exterior trim boards with a moisture content over 18%.  *see www.windsoron.com/moisturecontrol*
- **Keep Material Covered:** Store on stringers and out of the weather.
- **Install 6” Above Grade:** Trim should be installed always at least 6” from ground.
- **Install 2” Above Roof:** 2” breaks are crucial on the roof and flat surfaces (porches, decks, etc).
- **1/4” from Flashing:** Flashing is imperative; and always maintain a 1/4” gap for a capillary break.

*See Full Installation Instructions. WindsorONE should be stored, installed, handled & maintained correctly for the best performance.

For complete installation guidelines & the WindsorONE Protected warranty, visit WindsorONE.com/install or call 888.229.7900.
