1. Welcome and Review/Approval of Minutes from March 27, 2015

2. Follow up Conversation: Core Transfer Library – Courses Not Offered at IUPUI
   - Summary of CTL course offerings (proposed assignments for 9 IUPUI courses on tab 2)
   - Discussion over the Core Transfer Library and the courses not offered at IUPUI. Question of if we are able to articulate with undistributed General Education competency domains?
   - Feedback from School of Science (K. Marrs/J. Watt)
     - Calculus, Short 2 – do not transfer
       1. Introduction course (shouldn’t be touched)
          a. Few students (transfer students) that would have had it from IU Southeast or IU Bloomington
       2. We don’t need to mess up the table for this course
     - Math applications – do not transfer
     - Survey of physical science – will not count for our science majors because there are other science courses that students have to take, but for other students it is fine to be considered for general ed
   - Feedback from School of Liberal Arts – approved by T. Davis (3/25/15)
     - Children’s literature unconfirmed at least until May
       1. Will talk with English department
   - Voting:
     - Motion to endorse recommendations made from liberal arts and science that the courses that we do not offer into the Core Transfer Library (except for Children’s literature)
       1. All agreed

3. Program Review (S. Baker, C. Kacius, C. Gentle-Genitty)
   - Discussion of Revised Online Certificate in Special Education (S. Baker, C. Gentle-Genitty, & C. Kacius). This is the 3rd revision of the certificate. The certificate needs to be updated with the course titles with the appropriate listing. Everything else has been addressed except for the courses.
     - The areas that were not acceptable have been improved
     - Question of if IU online consulted for it.
       1. KJ: It was sent to IU online but we haven’t heard anything back from them
     - Voting: Approved to be sent for review (8 votes)
   - New Minor: IUPUC English Creative Writing Minor (to be discussed in May)
4. Continued Discussion of Process for Continuous Review/Approval of Courses Approved to General Education Core
   - Problematic area is when a dean talks to N. Paydar and N. Paydar tells them to work with UAC
   - What is less obvious is the issue with cleaning up proposals
     1. Sometimes the proposal is received and sometimes it isn’t before hand
   - Draft Proposal [initially discussed in March, 2015]
   - Feedback:
     - KJ: We are doing a pilot with psychology this summer using student artifacts
       1. Let campus know how the pilot went and possibly use for 2017?
       2. Portfolio process would have little for them to do
       3. Goal would be to rarely talk about a course during this meeting unless there’s an issue with the course
     - KJ: Endorsement in May as a draft

5. Defining the Undergraduate Experience at IUPUI – update on PUL communication strategy
   - There is communication of the PULs capturing the importance of it from faculty and students. There are also focus groups that will be conducted (they were conducted the end of April) with juniors about the PULs.
   - Capturing importance of PULs from faculty and students
     - With student employers also and have them speak to why PULs are important
   - Focus groups of juniors
     - Difference with FYS and transfers

6. New Business
   - Meeting time for 2015-2016 UAC meetings will be 3rd Friday of the month

Proposals that will likely soon be ready for review:
   - Certificate in Data Analytics, Department of Computer and Information Science—School of Science
   - BS in Dental Hygiene

Remaining Spring Meetings: Friday, May 15, 1-3 PM (UL 0110)
